How we can help you

We will be serving Small and Medium size IT, Consulting or Product organizations based in Europe and US, who require offshore assistance for their manpower requirements

Indicative Scenarios :

- You have documents written in French, you need translators to translate them in English.
- You need consultants to migrate existing applications to AWS.
- You are running 4 member accounts team, you need 2 additional consultants to accommodate the workload.
- Your organization has recently implemented SAP, you need functional testers.
- You are launching a product and you need developers to create your B2C/B2B Website.
- You need Executive assistant to support CEO, MD.
- You have an engineering team and you need Python Developers to develop web applications and maintain your software products.
- Your organization wants to deliver exceptional customer service and you need a customer support team to meet your goal.
